Profile

Results-driven Data Science and AI specialist with expertise in machine learning, deep learning, and data analysis. Completed advanced coursework in Data Science, including EDA, NLP, Big Data Technologies, and MLOps tools. Passionate about applying AI to solve real-world problems and delivering end-to-end solutions from data preprocessing to model deployment. Skilled in teamwork, continuous learning, and sharing knowledge through teaching and mentoring.

Education

Arab Open University (AOU) **Sep. 2023 – Jun. 2027**
Bachelor of Computers Science , Major: Artificial Intelligence *Cairo, Egypt*
• General Grade: Very Good

Experience

DEPI – Ministry of Communications and IT **Oct. 2024 – Mar. 2025**
Data Science Internship (152 Hours) *Cairo, Egypt*

- Hands-on experience in data analysis, ML, DL, EDA, NLP, and Big Data tools.
- Worked on MLOps workflows with practical deployment exposure.
- Collaborated with a team to optimize predictive models for real-world datasets.

ITIDA Gigs Program – Generative AI Track **Feb. 2024 – Jun. 2025**
Intern *Cairo, Egypt*

- Training in Generative AI and freelancing, building a verified profile and submitting 10+ AI-related proposals.
- Delivered real-world projects and completed a final gig with full deliverables.
- Improved problem-solving and client communication through applied freelance projects.

Elevvo Program – Data & AI Track **Aug. 2025 – Sep. 2025**
Intern *Cairo, Egypt*

- Projects: Movie Recommender, Student Performance Analysis, Customer Segmentation, Loan Approval Prediction.
- Covered workflow from preprocessing to deployment.
- Enhanced skills in teamwork and agile project delivery under tight deadlines.

MCIT – Ministry of Communications and IT **Aug. 2025**
Data Analysis Trainee (30 Hours) *Remote, Egypt*

- Successfully completed a 30-hour Data Analysis training program.
- Learned fundamentals of data analysis, visualization, and data-driven decision making.
- Applied data visualization techniques to communicate insights effectively.

Projects

Customer Churn Prediction · *Scikit-learn, XGBoost, FastAPI, Plotly* [GitHub](#) **Sep 2025**
• Developed ML models to predict customer churn with metrics including accuracy, precision, recall, and F1-score.
• Built and deployed an API using FastAPI and Uvicorn with interactive dashboards via Plotly.

Heart Disease Prediction System · *Random Forest, AdaBoost, Streamlit* [GitHub](#) **Mar 2024**
• Implemented a machine learning system for cardiovascular risk assessment using UCI dataset.
• Achieved 81.52% accuracy (Random Forest) and 80.98% accuracy (AdaBoost).
• Deployed user-friendly Streamlit web application for real-time predictions.

Car Sales Forecasting and Optimization · *Random Forest, XGBoost, FastAPI, Streamlit, Power BI* [GitHub](#) **Jul 2024**
• End-to-end ML pipeline: data collection, cleaning, EDA, visualization, forecasting, and deployment.
• Integrated FastAPI backend with Streamlit frontend and interactive Power BI dashboards.

Titanic Survival Predictor · *TensorFlow, FastAPI, Pydantic* [GitHub](#) **Jan 2024**
• Built ML API to predict Titanic passenger survival using Keras model and feature preprocessing.
• Implemented type-safe validation with Pydantic and batch predictions support.

Technical Skills

Programming: Python, SQL, C++, Web Technologies

ML / DL: Scikit-learn, TensorFlow

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, PowerBI

Tools: SQL Server, Jupyter, Colab, VS Code

Concepts: Machine Learning, Data Visualization, MLOps, Database Design, OOP

Courses

Machine Learning & Data Science Diploma

Udemy

Eng. Mohammed Agoor

- Comprehensive program covering Python for Data Science, ML algorithms, DL basics, and deployment.

Unsupervised Machine Learning Diploma

Udemy

Eng. Mohammed Agoor

- Specialized training on clustering, dimensionality reduction, and real-world unsupervised ML projects.

Programming Foundations (Levels 1–5)

Programming Advices

Dr. Mohammed Abu-Hadhoud

- Strong foundation in problem-solving, data structures, algorithms, and OOP.

Introduction to Machine Learning

Sprints (Microsoft)

- Covered basics of supervised & unsupervised learning, AI concepts, and practical applications using real-world datasets.

Power BI — Learn Power BI from Scratch to Advanced Level

Udemy

- Practical training on building interactive dashboards, reports, and data visualizations with Power BI.
- Skills: Power BI, Data Visualization, Business Intelligence.

Languages

Arabic: Native or Bilingual Proficiency

English: Very Good
